BUDGET PROCESS

Fremont County begins the budget process in the month of July. The Assistant County Administrator & Finance Officer works with Department Heads and Elected Officials to review the current year's revenues and expenditures and begin working on the budget for the next fiscal year. Department Heads and Elected Officials submit their requested budget to the Assistant County Administrator & Finance Officer in September. The Assistant County Administrator & Finance Officer works with Department Heads, and Elected Officials to put the information together and compile a recommended budget to be presented to the Board of County Commissioners.

In October, the Assistant County Administrator & Finance Officer submits a recommended budget to the Board of County Commissioners. The Board reviews the information and makes any necessary changes before scheduling a Public Hearing in November. After the public has had a chance to review the budget and express questions or concerns regarding it, the Board of County Commissioners makes their final decision on the budget. The budget, along with the Mill Levy Certification, is adopted in December, to be in effect January 1.

BASIS OF ACCOUNTING

The accounts of Fremont County are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. Each fund's operations are accounted for with a

separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures.

All governmental funds are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become measurable and available as net current assets. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

The accounting policies of Fremont County conform with generally accepted accounting principles applicable to governmental units.
