Efforts to prevent falsification and assist workers with accurately documenting their work in the statewide database.

- FCDHS has written protocol that requires caseworkers to complete Record of Contact notes within 7 days of contact and/or by the 5th of the following month. FCDHS utilizes tracking reports from the Records of Management system to ensure that contacts are completed as required. These reports are reviewed on a monthly basis by the Child Welfare Administrators and provided to the Supervisors.
- Supervisors have the ability to accompany a caseworker to interviews, court, Family Engagement Meetings, and/or home visits as a piece of intervention for performance improvement and training.
- Child Welfare/Adult Protection Case Review Requirements-
 - Open cases have pre-audits for Foster Care Review/Foster and Kin Desk Review/In home and Assessment Reviews/Adult Protection Reviews through the Administrative Review Division
- Supervisors review work completed with caseworker in detail through safety assessments, Safety Plans, 90-day reviews and/or reports to the court on what the caseworker observed to inform safety, permanency, well-being, and children, youth and at-risk adults and to verify completion of required duties.
- Supervisors, Child Welfare Administrators and Adult Protection Services Supervisor shall regularly monitor for worker fatigue, burnout, and missed deadlines, as well as other predictive indicators to prevent falsification during routine supervision.
- Supervisors can complete outreach with the families their staff are working with. This could look like a meeting in the field with their staff and the family, a call to the family, or attending a court hearing with their staff.
- Child Welfare Administrators will be responsible for overseeing the data and providing feedback to Supervisors.
