RE: County Manager Report

The construction of the Pathfinder Park Community Center is almost complete. They are finishing the final items and we are scheduled to take over the building the end of November.

The brick dedication for the War Memorial Park is scheduled for November 9 at 3:30.

We currently have the remodel in the Motor Vehicle Division out for bid. For more information go to our website at www.fremontco.com. Upcoming projects include a remodel of some space at the buildings at 1901 East Main Street and replacement of the gates at the Fremont County Airport.

We have the interim audit scheduled for the week of December 20. We will begin the process to gather the information that will be needed so it is ready for that week.
