

## **SUMMARY OF FINDINGS**

**Canon City, Colorado  
August 14 and 15, 2015**

**“Thank you! The fact that I can smile and not worry is huge.  
You’re amazing.”**

**COMOM Patient**

## TABLE OF CONTENTS

The intent of this report is to provide a summary of the demographic, dental health, and clinical characteristics of patients attending the Canon City COMOM dental clinic, and to also delineate their perspectives of the clinic experience. This information will serve as a framework for informing future planning of COMOM clinics.

<b>Introduction</b> .....	<b>2</b>

## INTRODUCTION

Dental care is unattainable for many individuals. Among these individuals, it is common to find severe decay, infection, and pain. Oral disease is progressive and cumulative, and becomes more complex over time. It can affect the ability to eat, and how a person looks and communicates. Oral health is inseparable from general health, and can affect self-esteem and compromise a person’s ability to work at home, at school, or on the job.

In August 2015, the Colorado Mission of Mercy (COMOM) held a two-day dental clinic in Canon City, Colorado. Volunteer dentists from throughout the state embodied community stewardship by closing their dental practices and donating their labor and enumerable medical and dental supplies to enable patients to have care. These dentists, along with hygienists, assistants, office staff, lab technicians, and an array of other volunteers provided donated oral healthcare services to individuals who otherwise could not afford care.

The Harrison School was transformed into a large-scale dental clinic in which 150 dentists provided nearly 1,200 patients dental care. The gym was set-up for oral surgery, endodontic and restorative procedures, dental hygiene, and pediatric dentistry. The commons area was used for imaging, and classrooms were used for the preparation of flippers and dentures. More than \$1,100,000 in donated care was provided.

John Kearney, DDS, and Alex VanAcker, DDS, who were the Canon City Site Chairs, explained, “Access to dental care is a huge problem for many families especially for those living in rural areas. Many individuals cannot eat, sleep, or concentrate at work or school because of oral pain. COMOM helped a large number of individuals with much needed dental care. ”

In order to promote ongoing oral health, patients were given one-on-one instruction on how to care for their teeth and the importance of preventive dental care. In addition, each patient was provided a list of low-cost dental care options for further treatment, and a toothbrush, toothpaste, and floss. Patients also received information on the dental benefits available through Medicaid.

Patients were resoundingly grateful for the dental treatment they received. They were appreciative of the relief from pain and the gift of a smile, especially during financial hard times. A patient explained, “You’ve made it possible for me to chew food again . . . and to smile.”

COMOM has provided 12,000 patients with more than \$9,600,000 in dental care services since the program’s inception in 2007.

**Table 1. COMOM Dental Clinics 2007 – 2015**

YEAR	LOCATION	NUMBER OF PATIENTS
2007	Alamosa	1,301
2008	Loveland	1,411
2009	Brighton	1,297
2010	Colorado Springs	1,432
2011	Brush	1,375
2012	Pueblo	1,682
2013	Greeley	1,265
2014	Henderson	1,323
2015	Canon City	1,196

## VOLUNTEERS

As shown in Table 2, the success of the Canon City COMOM was due in large part to the 972 individuals who volunteered their services. (Appendix E displays a name listing of the volunteers.)

**Table 2. Canon City COMOM Volunteers**

Dentists	150
Dental Assistants	151
Dental Hygienists	84
Dental Lab Technicians	30
Dental Coders/Office Staff	51
Dental Equipment/Supply Support	21
Dental Students	58
Pre-dental Students	21
Dental Assisting Students	16
Dental Hygiene Students	14
Nondental Health Professionals (massage therapists, medical assistants, nurses, paramedics, pharmacists, pharmacy techs)	77
Community Volunteers	299
<b>TOTAL</b>	<b>972</b>

## TREATMENT DATA\*

Overall, 1,196 patients were seen at the Canon City COMOM. During the two-day dental clinic, 89 patients underwent a dental evaluation only, and 1,107 patients underwent both a dental evaluation and treatment. The dental services provided for COMOM patients were documented via a treatment record. (Appendix A).

The reasons given by patients for undergoing only a dental evaluation, and not going onto treatment, are shown in Table 3.

**Table 3. Reasons for Patients Not Undergoing Dental Treatment**

Not feeling well
Too apprehensive
Health status prohibited treatment (e.g., blood pressure or glucose reading too high)
Family member needed to be taken home
Unable to wait (e.g., needed to go to work)
Desired treatment no longer available due to time constraints (e.g., dentures, flippers)
Desired treatment unavailable (e.g., complicated extractions, tooth implants)

## EXIT INTERVIEW DATA\*

Of 1,107 patients undergoing treatment at COMOM, 1,074 participated in exit interviews; a 97 percent response rate.

The interview was comprised of 22 questions, asking patients about their pain status and the time frame of their most recent dental care, insurance status, demographic factors, and about their COMOM experience including whether they received oral health education. (Appendix B displays the exit interview questionnaire.)

\*Throughout the report, findings will be displayed with a denominator (N=X,XXX). The denominator will vary. It will represent the number of patients with data available related to the particular item being examined.

## DENTAL PROCEDURES PERFORMED AND DONATED FEES\*

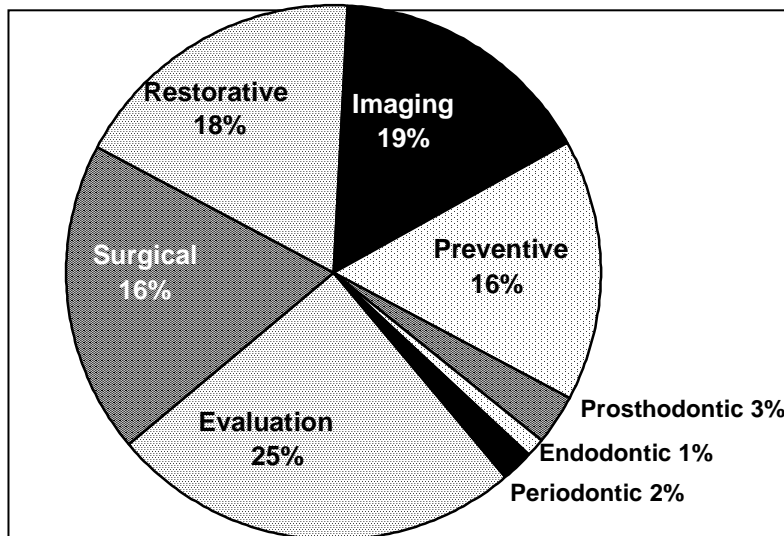

The number of patients seen at the Canon City COMOM totaled 1,196, with \$1,151,113 in donated dental services provided to these individuals. The donated fees amounted to \$962 per patient.

A cross-section of 6,924 procedures was performed at the 2015 dental clinic. (Table 4, Figure 1)

**Table 4. Dental Procedures Performed and Donated Fees (N=6,924)**

TREATMENT CATEGORIES	PROCEDURES	NUMBER OF PROCEDURES	DONATED FEES
Evaluation	Oral exams, oral cancer screening	1,731	\$ 151,290
Imaging	Intraoral-periapical, bitewing, panoramic films	1,325	71,650
Preventive	Prophylaxis, topical fluoride, sealants	1,132	71,920
Restorative	Fillings, crowns	1,243	399,417
Endodontic	Root canal therapies, pulp cap, pulpotomies,	85	66,970
Periodontic	Debridements, gingivectomy/gingivoplasty	134	26,685
Prosthodontic	Partial and full dentures, denture repair	176	110,031
Surgical	Extractions, alveoloplasties	1,077	249,274
Miscellaneous	Occlusion adjustments, odontoplasty	21	3,876
<b>TOTALS</b>		<b>6,924</b>	<b>\$1,151,113</b>

**Figure 1. Distribution of Dental Procedures (N=6,924)**

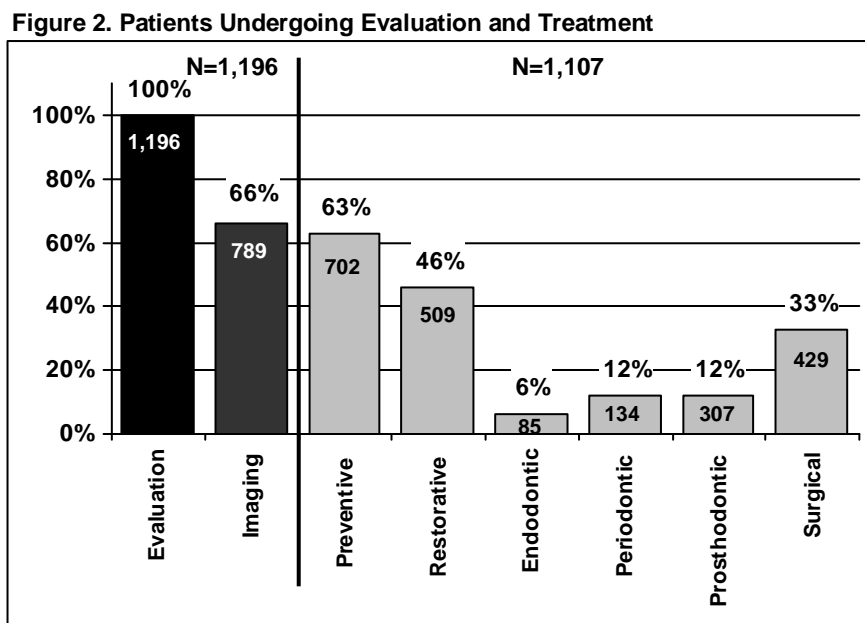

\*Detailed findings delineating the dental procedures performed and donated fees are shown in Appendix C.

## PATIENTS UNDERGOING DENTAL EVALUATION AND TREATMENT

Of the 1,196 patients who were seen at COMOM, all (100 percent) received a comprehensive oral examination, and of these, 66 percent underwent imaging procedures.

Figure 2 displays the distribution of dental services received by the 1,107 patients who underwent dental evaluation and subsequently went on to undergo treatment.

Note: Patients underwent multiple procedures across dental treatment categories; consequently percentages total more than 100%.

## PATIENT ENCOUNTERS ACROSS DENTAL DEPARTMENTS

Among COMOM's treatment goals is to relieve patients' pain and to address their most urgent needs. During triage, patients were asked about their dental care concerns and then the patient and triage dentist together determined the COMOM treatment priorities. After patients had their initial priority treatment performed, if time permitted, patients were able to undergo secondary dental treatments.

The Canon City COMOM had five clinical departments defined by dental codes: endodontics, hygiene/periodontics, oral surgery, prosthodontics, and restorative. (Children were seen by pediatric dentists.) As shown in Table 5, the 1,107 patients with treatment data had 1,818 encounters with dental health professionals across the departments.

**Table 5. Treated Patients – Dental Department Encounters**

NUMBER OF DEPARTMENTS VISITED	NUMBER OF PATIENTS	TOTAL NUMBER OF PATIENT ENCOUNTERS
One	534	534
Two	453	906
Three	102	306
Four	18	72
	1,107	1,818

## DEMOGRAPHIC CHARACTERISTICS

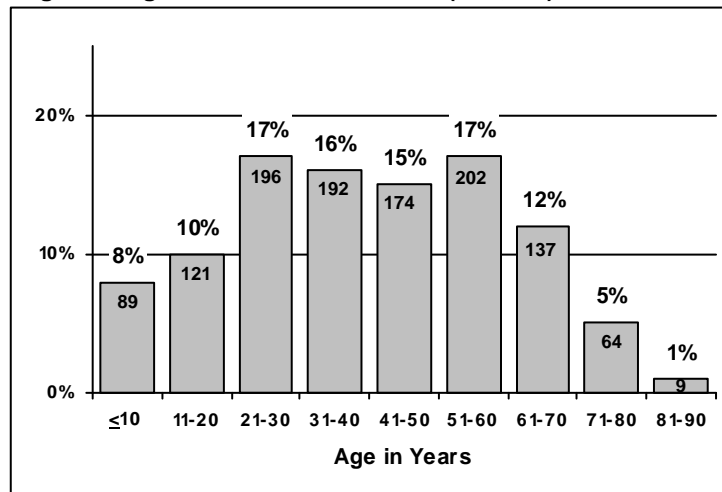

### GENDER

Of the 1,196 patients seen at the dental clinic, 58 percent were female and 42 percent were male.

### AGE

The average age of patients was 40.5 years with a range of nine months through 89 years. Figure 3 displays the age distribution of the patients.

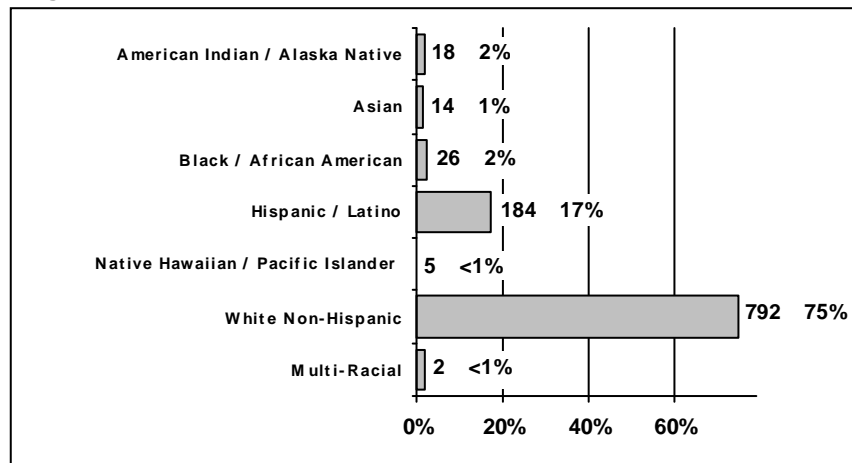

**Figure 3. Age Distribution of Patients (N=1,184)**

### ETHNICITY AND RACE

During the exit interviews with treated patients, patients were asked about their ethnicity and race. The distribution of patient responses is displayed in Figure 4.

**Figure 4. Treated Patients – Ethnicity and Race (N=1,059)**

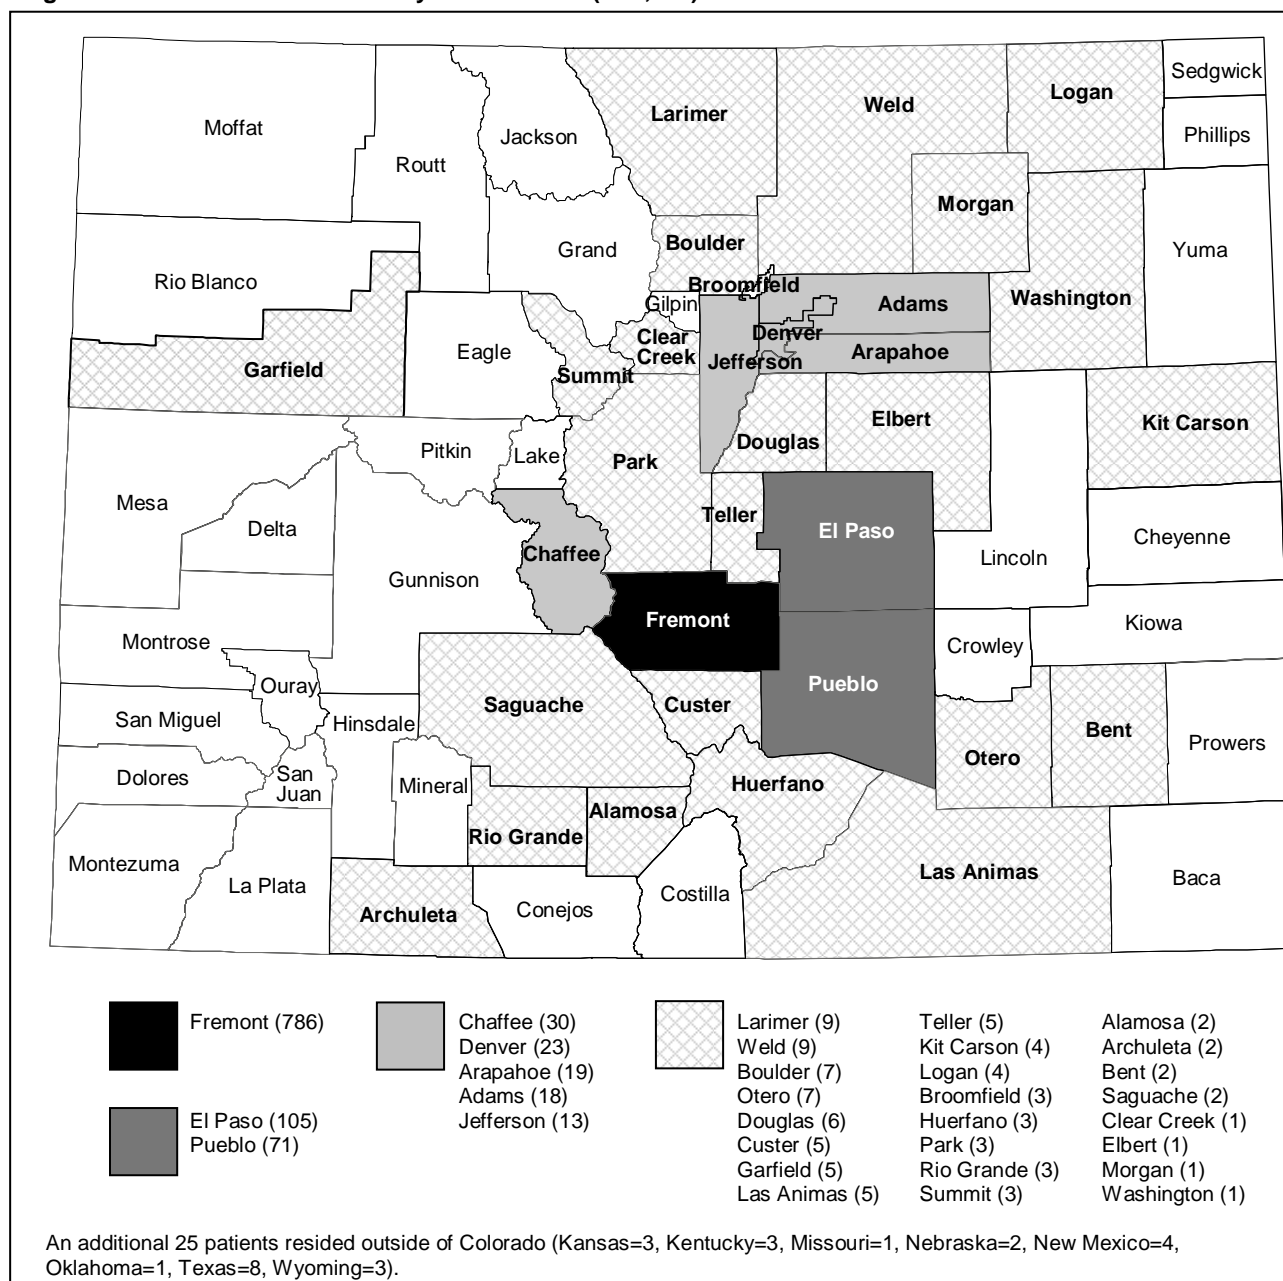

## COMOM DENTAL SITE AND PATIENTS' HOME LOCATION

The Canon City COMOM was held in Fremont County. Most patients attending the 2015 COMOM lived in close proximity to the dental clinic with 786 patients living within the County (Figure 5). The distance traveled from the patients' Colorado home to the COMOM dental clinic ranged from four through 188 miles (average 26 miles).

The majority of patients (71 percent) lived in communities classified via ZIP code as rural, with 29 percent living in communities classified as urban.\* In contrast with their urban counterparts, rural residents are more likely to have unmet dental needs. Individuals living in rural Colorado often lack geographic access to dental care facilities and may lack reliable transportation to travel long distances.

**Figure 5. Patients' Colorado County of Residence (N=1,158)**

\* Rural-Urban Commuting Areas (RUCA) geographic taxonomy was used to classify rural and urban areas via ZIP code. (For further information see [www.ruralhealth.und.edu/ruca](http://www.ruralhealth.und.edu/ruca), August 2014.)

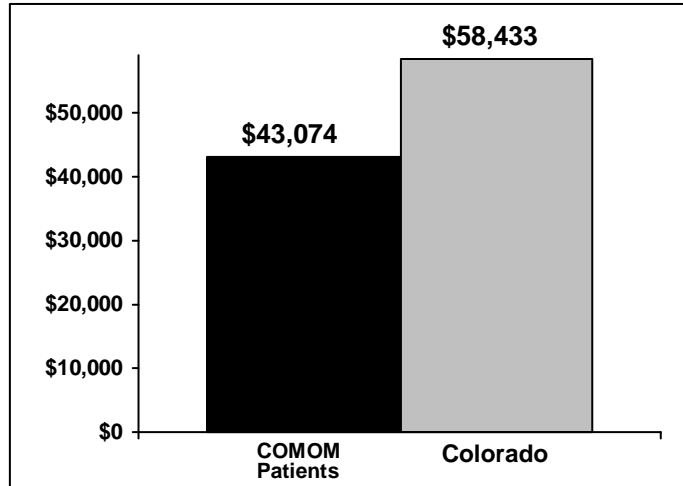

## ESTIMATED HOUSEHOLD INCOME

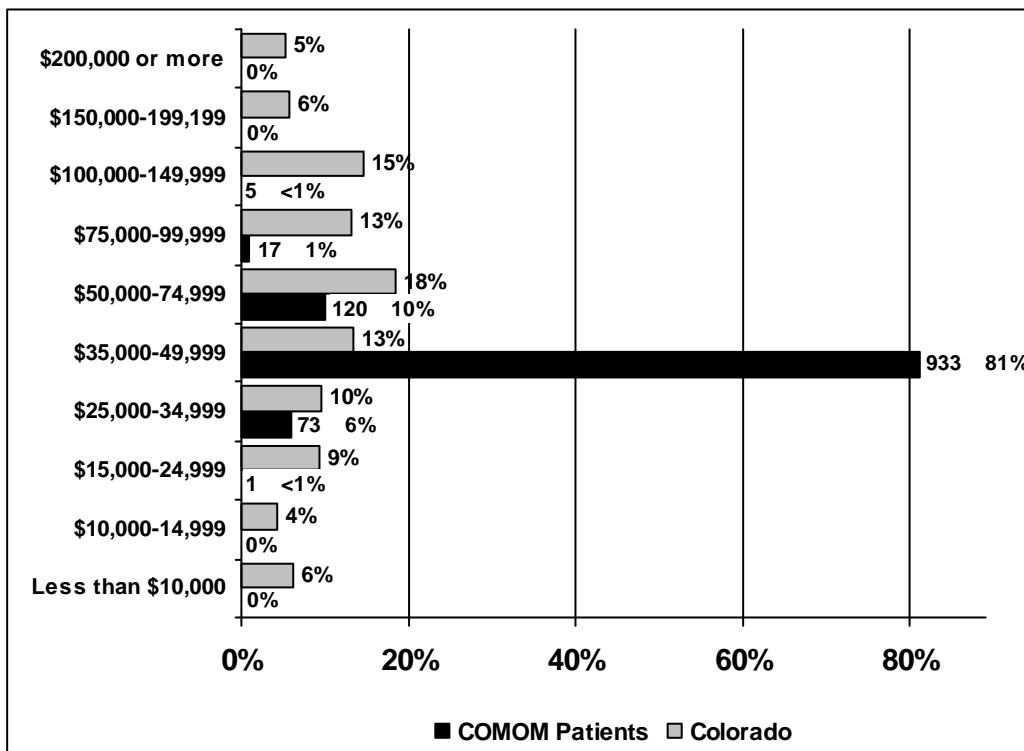

Using ZIP code level data derived from US Census Bureau estimates for 2013, the average median household income of patients seen at COMOM, who resided in Colorado, was only \$43,074. In comparison, the statewide median household income in Colorado was \$58,433 (Figure 6).\*

As displayed in Figure 7, the vast majority of patients seen at the dental clinic were within the \$35,000-49,999 income range (81 percent). For Colorado residents as a whole, 13 percent were in the same income range.

**Figure 6. Patients' Average Median Household Income (N=1,149)**

**Figure 7. Patients vs. Colorado Statewide: Distribution of Median Household Income (N=1,149)**

\* US Census Bureau, 2009-2013 5-Year American Community Survey and [www.zip-code.com](http://www.zip-code.com).

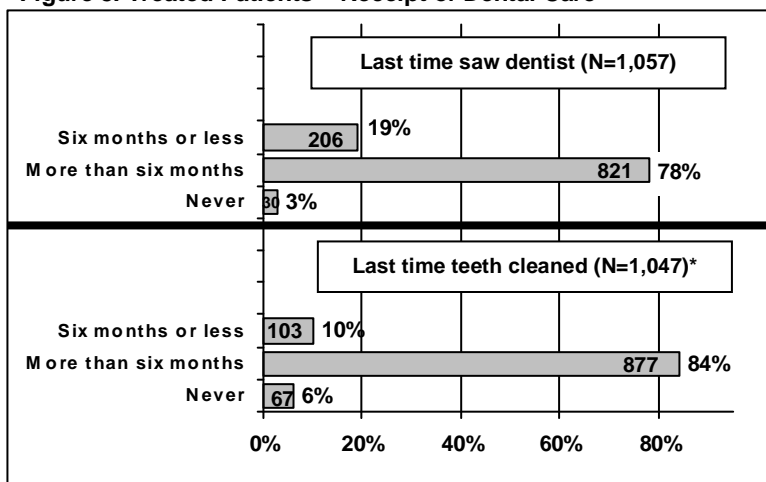

## DENTAL CARE

Dental health is an important part of a person’s overall health. As a general recommendation, individuals should be seen by a dental health professional every six months. Regular visits allow a dentist to find early signs of decay and disease, and treat problems at a manageable stage.

Of treated patients, only 19 percent saw a dentist within six months of the COMOM dental clinic. On average, the last time patients saw a dentist was 3.9 years (range two days through 50 years). Three percent never saw a dentist; the average age of these patients was 20 years (range one through 75 years). (Figure 8)

Only 10 percent of the patients had their teeth cleaned within six months. On average, the last time patients had their teeth cleaned was 5.6 years prior to COMOM (range four days through 50 years). Six percent of patients never saw a dental hygienist for care; the average age of these patients was 36 years (range one through 85 years).

**Figure 8. Treated Patients – Receipt of Dental Care**

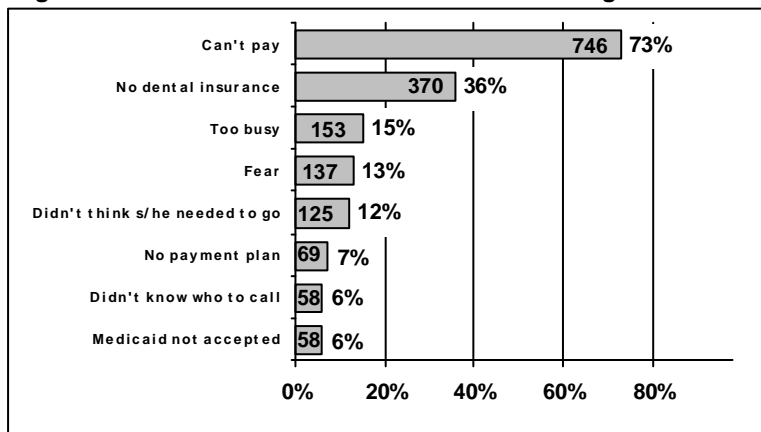

\* An additional 9 patients were edentulous

## REASONS FOR NOT SEEKING DENTAL CARE

As displayed in Figure 9, patients indicated that the two major reasons for not seeing a dentist were not being able to afford dental care (73 percent) and not having dental insurance (36 percent).

**Figure 9. Treated Patients – Reasons for Not Seeking Dental Care (N=1,022)**

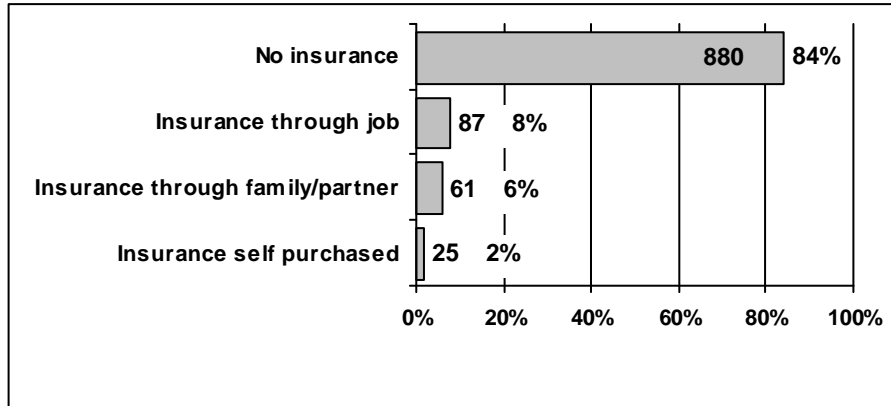

Notes: Patients were able to provide more than one reason for not seeing a dentist, consequently percentages total more than 100%.

## DENTAL INSURANCE

Access to dental care is difficult for many individuals, and lack of dental insurance is a factor. As displayed in Figure 10, the vast majority of patients who were treated at COMOM did not have dental insurance (84 percent).

**Figure 10. Treated Patients – Dental Insurance Status (N=1,053)**

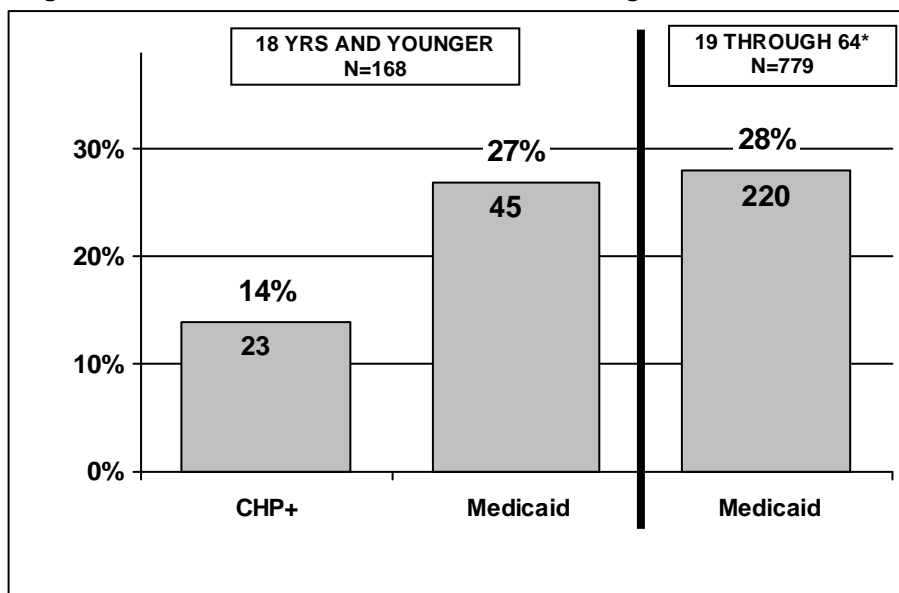

## MEDICAID AND CHP+

Medicaid and the Child Health Plan Plus (CHP+) programs provide some dental coverage. Of COMOM patients age 18 years and younger, 14 percent were covered by CHP+ and 27 percent were covered by Medicaid. With patients 19 through 64 years, 28 percent were covered by Medicaid. (Figure 11)

During the one-on-one exit interview, of the 1,074 patients interviewed, 942 (88 percent) were given a document explaining the Medicaid application process. Patients were also referred to an individual onsite at the dental clinic who could answer Medicaid-related questions.

**Figure 11. Treated Patients - Medicaid / CHP+ Coverage**

\* One additional patient, a 26-year-old woman, who was pregnant, was covered by CHP+.

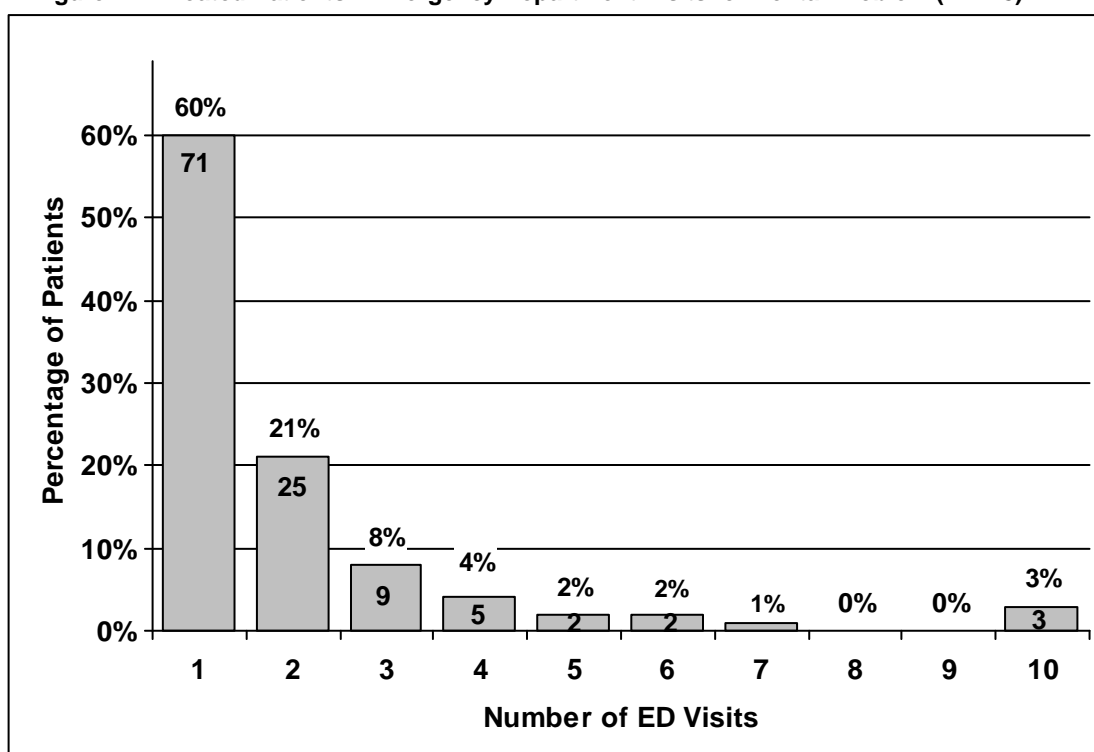

## EMERGENCY DEPARTMENT VISITS FOR DENTAL PROBLEMS

Individuals, who are unable to afford to see a dentist, sometimes seek care at hospital emergency departments. Of the 1,067 COMOM patients with data available, 11 percent self-reported visiting a hospital emergency department (ED) for a dental problem.

As displayed in Figure 12, these 118 patients indicated that they made 227 visits. The highest percentage of patients made one visit (60 percent). The most frequent reasons the patients gave for their ED visit was that they were in pain or that they had an abscess and/or infection.

*Of note, if the hospital cost related to each of the 227 emergency department visits were conservatively estimated to be \$1,000, the total hospital cost would be \$227,000.*

**Figure 12. Treated Patients - Emergency Department Visits for Dental Problem (N=118)**

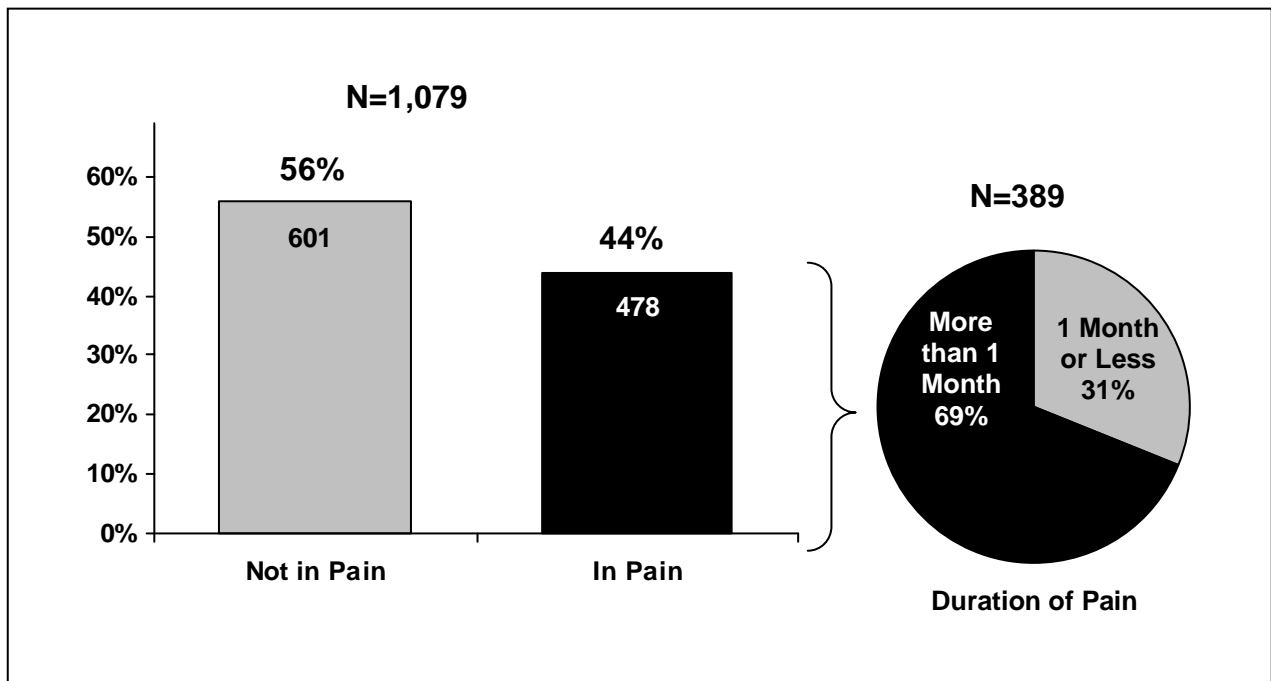

## DENTAL PAIN

Of the 1,079 treated patients with pain data, 44 percent indicated that they were in pain prior to coming to the COMOM dental clinic (Figure 13).

Of the 389 patients with available data, 69 percent were in pain for more than a month. On average, the patients were in pain for 13 months with a range of one day through 20 years.

Figure 13. Treated Patients - Dental Pain

## TOBACCO USE

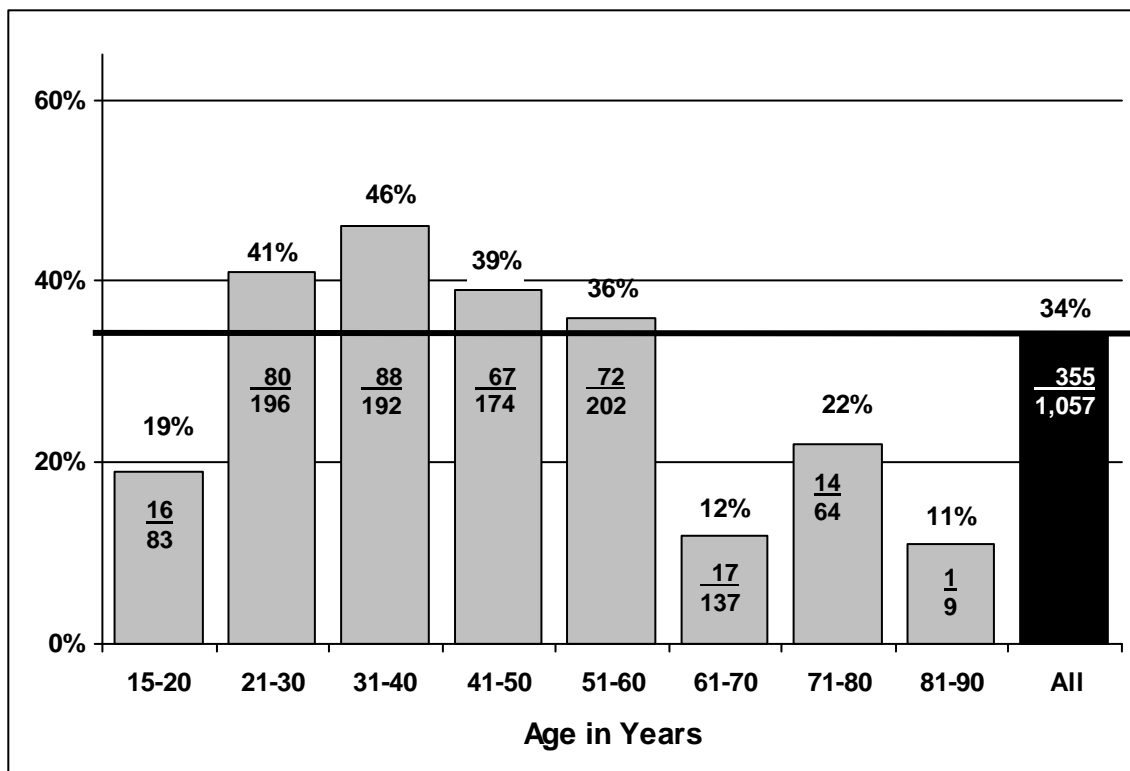

Tobacco use is a risk factor in the development and progression of gum disease. The chemicals in tobacco slow down the healing process and make treatment of gum disease less successful. Individuals who use tobacco products are more likely to develop oral cancer, and have high rates of tooth decay, tooth loss, gum recession and bone loss.

### PATIENT TOBACCO USE BY AGE

At the Canon City COMOM, the youngest treated patient who used tobacco products was 15 years old. Of the 1,057 patients who were aged 15 years or older and had tobacco use data, 34 percent indicated that they were using tobacco at the time of the dental clinic. (An additional 23 percent indicated that they used tobacco products in the past.)

*In comparison, estimates, via the Colorado Behavioral Risk Factor Surveillance System Statistics (BRFSS), showed that only 17.8 percent of the Colorado population aged 18 years or older were cigarette smokers during the time period 2011-2012.*

**Figure 14. Treated Patients Age ≥15 – Tobacco Use by Age Group (N=1,057)**

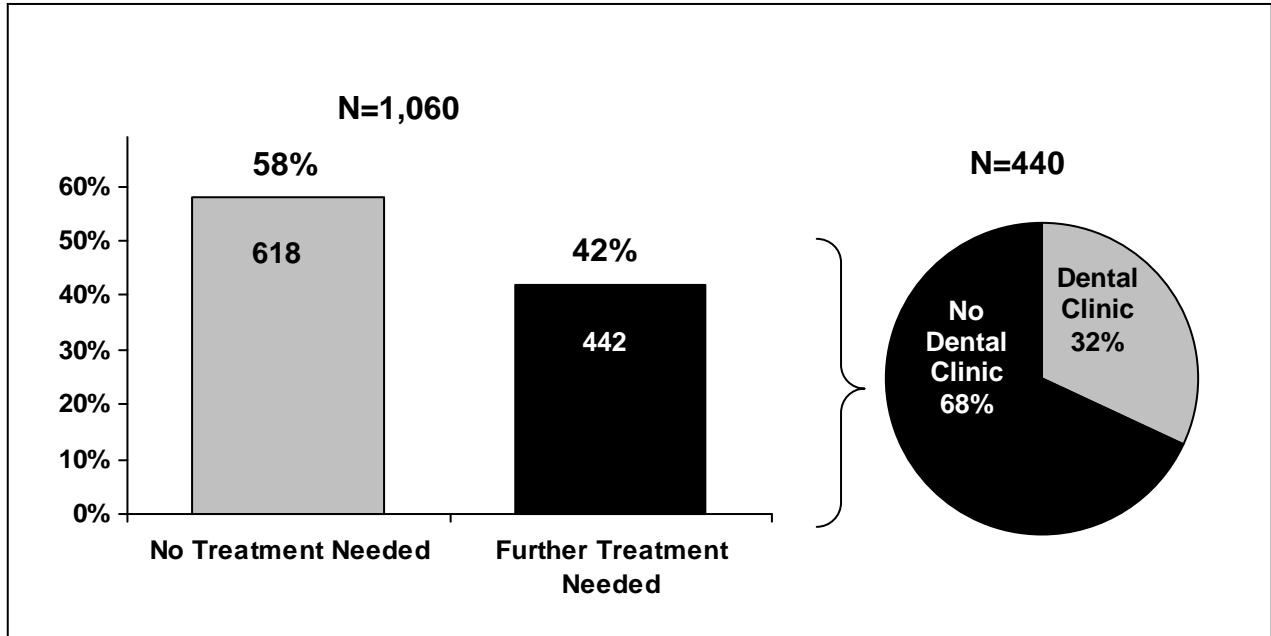

Note: The numerator represents the number of patients who were using tobacco products at the time of the 2015 COMOM dental clinic; the denominator represents the number of patients in the age group.

## FURTHER DENTAL CARE

Of patients being treated, 42 percent were informed by COMOM dental health professionals that they were in need of further dental care. Of these patients, 68 percent did not have a regular dentist. (Figure 15)

During the one-on-one exit interviews with 1,074 patients, interviewers reviewed a document with 96 percent of these patients that delineated low-cost dental treatment options. Patients were also referred to an individual onsite at the dental clinic who could answer questions related to the Dental Lifeline Network.

**Figure 15. Treated Patients – Further Dental Care**

## ORAL HEALTH INSTRUCTION

In order to promote ongoing oral health, patients were also given one-on-one homecare instruction on how to care for their teeth and the importance of preventive dental care and a healthy diet. Patients also received a listing of low-cost dental clinics and a toothbrush, toothpaste, and floss

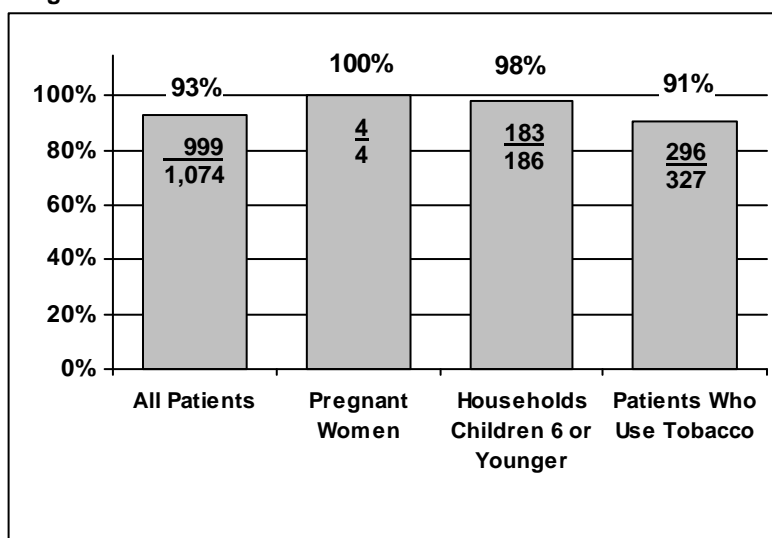

The vast majority of COMOM patients (93 percent) received oral health instruction and take-home educational materials (Figure 16).

The dental professionals provided care to four women who were pregnant, and all received instruction.

The Canon City COMOM incorporated aspects of the Cavities Get Around and the Cavity Free at Three initiatives. Of treated patients who had a child six years or younger residing in their household, 98 percent received oral health instruction.

In addition, COMOM provides information on the ramifications of tobacco use and the availability of tobacco cessation strategies. Of patients who were using tobacco products, 91 percent received oral health instruction.

**Figure 16. Treated Patients – Oral Health Instruction**

\* Cavity Free at Three is a Colorado based grant funded initiative offering training to licensed providers on the delivery of oral health services in a wide variety of settings. The mission is to eliminate early childhood caries in Colorado’s children, helping them to grow up free of dental disease.

Cavities Get Around is a program of Delta Dental of Colorado Foundation. Its aim is to change attitudes about dental health and ultimately win the battle against childhood decay in Colorado. The Cavities Get Around campaign strives to inform the community about the importance of baby teeth and how to care for them properly.

## PATIENTS' COMOM EXPERIENCE

### PARTICIPATION AT COMOM DENTAL CLINICS

As shown in Table 6, 83 patients (8 percent) were seen at previous COMOM dental clinics held in other Colorado communities. Thirty of these patients attended two or more previous clinics.

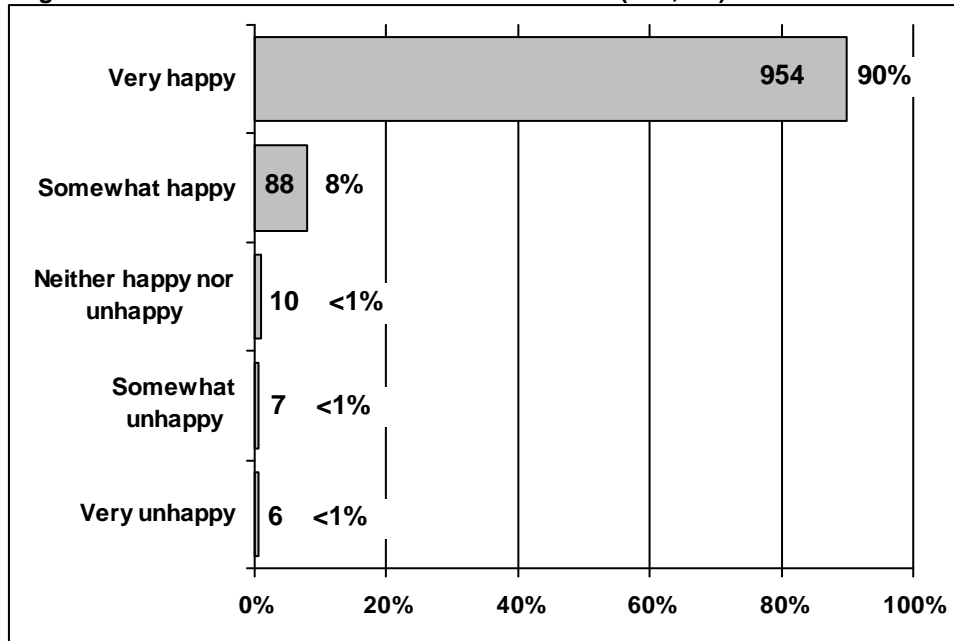

**Table 6. Treated Patients – Previous COMOM Dental Clinics (N=83)**

YEAR	LOCATION	NUMBER OF PATIENTS
2007	Alamosa	4
2008	Loveland	1
2009	Brighton	7
2010	Colorado Springs	16
2011	Brush	10
2012	Pueblo	32
2013	Greeley	29
2014	Henderson	35

### PATIENTS' SATISFACTION WITH CLINIC

Patients being treated at COMOM were overwhelmingly satisfied with 98 percent of them indicating that they were happy about their clinic experience (Figure 17).

**Figure 17. Treated Patients – Satisfaction with Clinic (N=1,065)**

## PATIENT PERSPECTIVES OF COMOM

Table 7 highlights the comments that patients provided about what were the most helpful aspects about the COMOM dental clinic.

**Table 7. Patient Comments on COMOM – Most Helpful Aspects of Program**

<p><b>TREATMENT</b></p> <ul style="list-style-type: none"> <li>• Complete care, more than one procedure</li> <li>• Getting everything that I needed done</li> </ul> <ul style="list-style-type: none"> <li>• Found cavities and took care of them</li> <li>• Getting fillings quickly</li> <li>• Filling and cleaning provided</li> <li>• Getting teeth cleaned and cancer screening</li> </ul> <ul style="list-style-type: none"> <li>• Extraction! Not having to deal with tooth anymore</li> <li>• Getting wisdom teeth pulled</li> </ul> <ul style="list-style-type: none"> <li>• Crown was very helpful</li> <li>• Dentures got fixed</li> <li>• Getting Dad's dentures. I am his caretaker and he has diabetes</li> </ul> <p><b>RELIEVING DENTAL PAIN</b></p> <ul style="list-style-type: none"> <li>• Getting rid of pain</li> <li>• Pain is gone</li> </ul> <p><b>CLINIC ENVIRONMENT</b></p> <ul style="list-style-type: none"> <li>• Bonding of community together- awesome!</li> <li>• Accessibility and information to community</li> <li>• Everyone was helpful, friendly. Good information and direction</li> <li>• I have never been to such an organized event in life. All of it was unbelievable. Everyone was helpful and informative, and the mad hatter lady was great. Awesome!</li> <li>• Everything. Volunteers were wonderful, speed was fast for number of patients</li> <li>• Very well organized, a dental factory</li> <li>• Good organization, manpower, and number of doctors present</li> <li>• All services in one place, conveniently located.</li> <li>• The escorts were amazing and so friendly</li> <li>• Easier than I thought. Volunteers took me from place to place</li> <li>• Exit Interviewers were amazing. They were engaged and truly interested in how my experience with COMOM went and showed they genuinely cared about me</li> </ul>	<p><b>PATIENT SELF-IMAGE</b></p> <ul style="list-style-type: none"> <li>• I can have confidence again (falling tears)</li> <li>• I can smile again!</li> <li>• Having a fresh start, improving confidence</li> </ul> <p><b>PATIENT CARE</b></p> <ul style="list-style-type: none"> <li>• Dental specialist answering questions. I was confident in recommended treatment plan</li> <li>• Answered questions well. Everyone was helpful.</li> <li>• Very knowledgeable volunteers, dentists, and other providers</li> <li>• Communication skills; answered questions well and when needed answers, went to the top and received answers very timely</li> <li>• All of the people who did the work were kind, dedicated, and caring</li> <li>• Dentist who pulled my teeth took his time and paid attention to me</li> <li>• Dentists and hygienists were comforting and let me know what was going on</li> <li>• Hygienists were patient with the children. I was able to get everything done that was needed. Could bring children and was organized</li> <li>• Appreciated the expedited services for children, which kept family together</li> <li>• Every volunteer was helpful. --	--

## PATIENT MESSAGES

Patients were very thankful for the services they received, and for the individuals who helped them. (Table 8 highlights a sampling of patient messages left for COMOM volunteers.) As the volunteers conducting the exit interviews would attest, the written words of the patients embody only a small portion of the intensity of the appreciation and gratitude that they expressed.

**Table 8. Messages to COMOM Volunteers**

<ul style="list-style-type: none"> <li>• All the volunteers were very much appreciated. Most of us would not have been able to afford dental care if it wasn't for COMOM!!</li> <li>• An awesome experience--everyone was helpful 100%!</li> <li>• Awesome! Best dentist in 30 years!</li> <li>• Dentists were awesome. They cared about their patients and asked often how I was doing/feeling! Grateful that they offered pain medication as well.</li> <li>• Everyone made it fun! Very professional, friendly, great experience, and SO grateful!</li> <li>• Everyone was very patient, compassionate, and gentle.</li> <li>• Extremely appreciative. Surprised at how fast and painless the procedure was, amazing!</li> <li>• Extremely pleased! Can't say more!! Surprised!! Would definitely recommend to anyone!! The quality of care and speed was most impressive.</li> <li>• Greatly appreciated it. It's a great relief to know people are willing to give their time to do this.</li> <li>• If they had all this when I was a kid I would still have all my teeth!</li> <li>• I'm glad that people with such education and talent were willing to share their gift.</li> <li>• My friend was nervous because she thought the atmosphere would be negative. Everything was all so positive, COMOM rocks!</li> <li>• My sincere heartfelt thanks. They didn't have to do this. They were nice people.</li> <li>• Some organizations seem to only care about the money, but this experience has changed my perspective. COMOM is making a real difference in people's lives, and they truly care about the people they are helping.</li> <li>• Thanks to all the dentists for helping and their kindness and also a big thank you to all of the other volunteers.</li> <li>• Thank you and you are awesome. This was the best dental experience I have ever had.</li> <li>• Thank you for your wonderful work. It shows the love you have for the community.</li> <li>• Thank you for being so friendly, caring, and competent! I also liked that my children were being educated and learned the technique that will help them floss correctly in the future.</li> </ul>	<ul style="list-style-type: none"> <li>• Thank you is just not big enough for what I feel.</li> <li>• Thank you. Please, please don't ever stop!</li> <li>• Thank you so much for the TLC. The treatment was pleasant and informative.</li> <li>• Thank you! The fact that I can smile and not worry is huge. You're freaking amazing!</li> <li>• Thank you to hygienist for taking the time to do a good job and be careful with my sensitive teeth.</li> <li>• Thank you very much for the services and the Lord will bless you in the future.</li> <li>• Thank you very much for your time and talent; a treasure you shared with others.</li> <li>• Thank you! Very thorough, organized, and efficient.</li> <li>• Thank you! Wonderful work! Hopefully I can volunteer next time.</li> <li>• You are all angels. Best thing that has happened to me.</li> <li>• You did a great job. Very informative. Made me feel at ease.</li> <li>• You made me feel special and did a wonderful job! Most importantly, I didn't feel like they were doing me a favor.</li> <li>• You really helped me out. Because of my teeth I was too embarrassed to look for a job. My marriage was suffering and my wife was unhappy, but now my marriage is going in the right direction. My life has changed.</li> <li>• You're awesome. Thank you for volunteering and not giving up on your patients.</li> <li>• You were all awesome. Thank you for being caring and loving people!</li> <li>• You were all great. Your work was amazing. God bless you all. I have a huge smile on my face.</li> <li>• You were wonderful. Best I've ever seen. Can't believe there were so many people and everyone was so nice!</li> <li>• Very appreciative of all your hard work! Very beneficial to the community.</li> <li>• Very professional and helpful. Emphasized prevention which is important.</li> <li>• Waited two years with Medicaid limits and was not able to get the work done. It is so difficult to find dentists who take Medicaid. Thank you COMOM!</li> </ul>

**IMPORTANT**

Patient Number: \_\_\_\_\_

First Initial of Last Name: \_\_\_\_\_

**2015 CANON CITY COMOM – PATIENT INTERVIEW**

We would like you to help us evaluate how well this Colorado Mission of Mercy (COMOM) is serving the community. The information is confidential and will not be used to identify you personally.

<b>PHARMACY:</b> <input type="checkbox"/> Yes <input type="checkbox"/> No ↓	<b>FLU SHOT:</b> <input type="checkbox"/> Yes <input type="checkbox"/> No ↓	<b>IMPORTANT</b> <b>ORAL HEALTH INSTRUCTION (OHI):</b> <input type="checkbox"/> Yes <input type="checkbox"/> No ↓
If no, if patient has prescription not filled and/or had oral surgery, send to pharmacy.	If no, ask patient if s/he would like flu shot, and if so, send to flu shot area.	If no, patient is to go to the OHI area. (If seen in OHI, patient will have OHI bag.)

**THE FIRST QUESTIONS ARE ABOUT YOUR DENTAL CARE**

- 1a. Before coming to this clinic, were you in dental pain? **(CROSSCHECK AGAINST TREATMENT FORM)**  
 Yes  No (Skip to 2)  
 ↓
- 1b. If yes, about how long have you been in pain? **(NUMBERS ONLY)**  
 \_\_\_\_ Years \_\_\_\_ Months \_\_\_\_ Days
2. Were you told that you needed further dental treatment beyond that provided during COMOM? (Example: cavity filled, root canal, dental cleaning, etc.)  Yes  No
- 3a. Do you have a regular dentist or dental clinic?  Yes  No
- 3b. If yes, what is the name of dentist or dental clinic: \_\_\_\_\_
4. Review low-cost dentistry options, and encourage him/her to meet with individual at Dental Lifeline table:  Yes
5. Are you covered by CHP+? (Children age 18 and under and pregnant women age 19+ ONLY)  Yes  No
6. Are you covered by Medicaid?  Yes  No
7. Show patient Medicaid material contained in envelope with special attention to dental benefits, and encourage him/her to meet with individual at Medicaid information table:  Yes
8. Aside from Medicaid or CHP+, what dental insurance do you have? (Mark one)
  - No dental insurance
  - Dental insurance through my job
  - Dental insurance through a family member or partner
  - Dental insurance I purchase myself

8b. If patient has dental insurance, what is the name of dental insurance plan \_\_\_\_\_
- 9a. Over your lifetime, how many times have you visited a hospital emergency department for a dental problem? **(NUMBER ONLY)**
- 9b. What were the dental problems that caused you to visit the emergency department?  
 \_\_\_\_\_
10. When was the last time you had your teeth cleaned?  
 \_\_\_\_ Years \_\_\_\_ Months \_\_\_\_ Days **(NUMBERS ONLY)**  Never  I have full dentures
11. When was the last time you saw a dentist?  
 \_\_\_\_ Years \_\_\_\_ Months \_\_\_\_ Days **(NUMBERS ONLY)**  Never

12. When you don't go to the dentist, what are the reason for not doing so? Mark all that apply.

<input type="checkbox"/> Cannot afford to pay	<input type="checkbox"/> Didn't know who to call
<input type="checkbox"/> Dentist didn't offer a payment plan	<input type="checkbox"/> Afraid to get or don't like receiving dental treatment
<input type="checkbox"/> Dentist didn't accept Medicaid	<input type="checkbox"/> Too busy
<input type="checkbox"/> I don't have dental insurance	<input type="checkbox"/> Other (describe):
<input type="checkbox"/> Didn't think I needed to go	

**THE NEXT QUESTIONS ARE ABOUT YOU**

13a. What is your age in years? \_\_\_\_\_ (CROSSCHECK)      13b. Gender?    Male    Female (CROSSCHECK)

14. **SHOWING CARD:** Which best describes you? (Mark all that apply)

- Alaskan Native or American Indian
- Asian
- Black or African American
- Native Hawaiian or Other Pacific Islander
- White

15. Are you of Hispanic or Latino origin?    Yes    No

16. Where do you live?

\_\_\_\_\_ Town/City      \_\_\_\_\_ State      \_\_\_\_\_ ZIP Code (CROSSCHECK)

**THE FOLLOWING QUESTIONS ARE ABOUT YOUR COMOM EXPERIENCE**

17a. Have you been treated at a COMOM dental clinic before this one?

- Yes    No

17b. If yes, at which clinics were you treated?

- Alamosa (2007)    Loveland (2008)    Brighton (2009)    Colorado Springs (2010)
- Brush (2011)    Pueblo (2012)    Greeley (2013)    Henderson (2014)

18. On a scale of 1 through 5, how happy were you with the services you received? (5 = Very happy, 1 = Very unhappy)

- 5=Very happy    4=A little happy    3=Neither happy nor unhappy    2=A little unhappy    1=Very unhappy

19. What suggestions do you have for improving your COMOM experience? (EXPAND)

20. What aspect about COMOM was most helpful? (EXPAND)

21. If it weren't for COMOM, what would you have done for dental care? Mark all that apply.

<input type="checkbox"/> Don't know	<input type="checkbox"/>
<input type="checkbox"/> Live with pain	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>

22. What message would you like us to share with the dentists, dental hygienists, and others who helped with COMOM? (EXPAND)

Second Treatment:  Yes    No

Dental Lifeline Network:  Yes    No

Medicaid:  Yes    No
