RE: Amrize Cement Inc. (formerly Holcim (US)) CUP 24-001 Red Creek Quarry
Request to Amend Condition

Dear Director Victoria,

Please accept this correspondence as a request to amend one condition of CUP 24-001, specifically Condition 13.a of Resolution 12, Series of 2025.

Amrize Cement Inc. (Amrize) respectfully requests unrestricted operating hours at the Red Creek Quarry (RCQ). Tim Smith, quarry manager, prefers to operate one 12-hour shift seven (7) days per week. Cement production is a very complex process and unforeseen upset conditions in the plant cause interruptions in production. When this occurs, RCQ will need to operate 24-hours per day until the plant production demands are met and standard operating conditions are restored.

Bear Creek Quarry (BCQ) has provided limestone and sandstone to three different cement plants over the course of more than 100 years. Unrestricted operating hours at BCQ have been necessary many times without complaints from oversight agencies, such as CPW, or community members, including neighbors near the plant. RCQ is substantially more remote than BCQ with only one neighbor and has designed 13 wildlife crossings in the transport corridor in addition to installing wildlife fences.

In summary, Amrize respectfully requests that Condition 13.a be amended to allow unrestricted operating hours with preferred operating hours of one 12-hour shift up to seven (7) days a week.

Please feel free to reach out to me directly with any questions.

Respectfully submitted,

Angela M. Bellantoni
