Please read prior to completion of this application

The Minor Subdivision Application is a one (1) time exemption from the Sketch Plan, Preliminary Plan and Major Subdivision (*Final Plat*) procedures. The Minor Subdivision Application allows for the creation of two (2) or three (3) lots from a parent parcel. One (1) Minor Subdivision may be allowed for a lot, tract or parcel that has not been previously platted as a Minor or a Major Subdivision or any portion thereof. If the parent parcel has been previously platted or subdivided in whole or in part as a Minor Subdivision or a Major Subdivision, then all appropriate Sketch Plan, Preliminary Plan and Major Subdivision requirements shall be met rather than Minor Subdivision. In processing a Minor Subdivision all lot size and width requirements as per the Fremont County Zoning Resolution (FCZR), Zoning Maps and Appendix 1 and 2 of the Fremont County Subdivision Regulations (FCSR) regarding lot and street design shall be met.

Any application which is not complete or does not include all minimum submittal requirements will not be accepted by the Fremont County Department of Planning and Zoning (Department). Further, any application that is inadequately prepared, or is incomplete, may be subject to postponement (*until an adequate submittal is provided*) of placement on an agenda of the Fremont County Planning Commission (Commission).

The applicant shall provide **one (1) original document, and an electronic copy (either CD or flash/thumb drive)** of the application and all of its attachments. After submittal, the Department will review the application and all attachments and prepare a Department Submittal Deficiency and Comment Letter (D & C Letter). The letter will state the submittal

deficiencies, Department comments and or questions about the application, which must be addressed by the applicant. In addition the letter will note the number of revised application packets that must be supplied to the Department in order to place the application on an agenda of the Commission.

Attachments can be made to this application to provide expanded narrative for any application item including supportive documentation or evidence for provided application item answers. Please indicate at the application item that there is an attachment and label it as an exhibit with the application item number, a period and the number of the attachment for that item (*as an example, the first attached document providing evidence in support of the answer given at application item number 22 would be marked - Exhibit 22.1, the fifth attached document supporting the narrative provided for application item 22 would be marked - Exhibit 22.5*).

An application fee set by the Board of County Commissioners (Board) shall accompany this application.

An additional full application fee will be charged to the applicant, as per resolution approved by the Board, if all deficiencies, as per the initial D & C Letter, are not adequately addressed or provided. Each subsequent D & C Letter, based on resubmitted items, will result in another full application fee. All such fees shall be paid along with the deficiency submittal, prior to any further review of the application.

If the application is approved by the Board with contingencies and the contingencies cannot be met within the specified time frame (*normally 6 months*), an additional fee will be charged, as per resolution approved by the Board, to the applicant for each request for extension of the contingency deadline. All such fees shall be paid along with a written request, explaining the need for extension, prior to being placed on a Board meeting agenda for consideration of the request. Extensions must be requested prior to the expiration of the specified time frame.

The Department, The Commission and/or The Board may require additional information at any time during the application process as may be deemed necessary in order to review the application adequately, to determine if the application is in compliance with all applicable regulations and make an informed decision with regard to recommendations, approval or disapproval of the application.

For specific regulatory requirements the applicant should refer to the appropriate sections of the Fremont County Subdivision Regulations (FCSR) and the Fremont County Zoning Resolution (FCZR). In addition, consideration shall be given to the Fremont County Master Plan (FCMP), as the Department will consider it in the review of Minor Subdivision applications which could result in the need for additional information from the applicant.
