This is a Priority item

3-501.16 (A) (2) - TCS Food, Cold Holding (P)

- TCS Food, Cold Holding (P)

Observation: Refrigeration unit observed holding greater than 41 degrees F.

Kitchen 2-door reach in refrigerator holding food at 44°F. Proper holding temperature is at 41 or below. This may need to be repaired or replaced as this has continued to be an issue. This unit is excessively full, it is possible that it is too full and the air cannot circulate to properly cool. With the new addition of a walk-in refrigerator, store more items in the walk in and use the reach in refrigerator for daily items.
