## General Comments

## **GENERAL COMMENTS**

Observed grease build up in kitchen area cleaned. All hoods, walls, floors, floor drains, and equipment has been cleaned. Spoke to manger about ensuring frequent cleaning of non-food contact surfaces and equipment. Observed slush machine and ice cream machine not having any build up and are cleaned daily. All soda nozzles are cleaned each evening. Observed no trash stored behind build. All trash was stored in large dumpster. Observed no grease outside on the ground near loading/drive thru area.

Facility has a contract with Orkin and they come by once a month or as needed. Last visit was on 7/27/21 per provided invoice. Per invoice not evidence or pest during time of visit.

During inspection proper handwashing was observed by all staff. Manger was watching and counting to ensure each staff washed their hands for 20 seconds.

Kevin Mosaffa is the new district manger and we spoke about active managerial control, training all staff on hand washing, knowing proper food temperatures, sick employee policy, and all other food safety protocols. I informed Kevin if he has any questions to always contact local public health (Fremont County) but did provide my contact information as well.
