54	NO	Garbage & refuse properly disposed; facilities maintained				
55	NO	Physical facilities installed, maintained, & clean				
56	NO	Adequate ventilation & lighting; designated areas used				

Observed Violations:

22- Proper cold holding temperatures

Priority

3-501.16(A)(2): Time/Temperature Control for Safety Food, Cold Holding (P)

Inspector Comments:

Ambient air in walk in temped around 43 degrees again. There are a lot of items cooling in the walk in at this time of morning, this most likely is raising the temperature of the walk in. The ambient air should be around 38 degrees to hold the food at 41 degrees or below. Try ice wands in the products you are cooling to help the walk in hold temperature.

General Comments and Notes

Hot Hold has been replaced and is correctly holding food at 135 degrees or above. Date marking was discussed, facility has day stickers they plan on implementing.

Follow up Required: No Follow up Date (if applicable): 7/27/2019

Amy Jamison(7/24/2019 7:23:16 AM)
