Retail Food Establishment Inspection Report

FACILI	TY NAN	IE: IHOP #3514			
ADDRE	ESS:				
DATE:	10/06/2	020 INSPECTION TYPE: Routine Inspection	INSPECTION TYPE: Routine Inspection		
		FOODBORNE ILLNESS RISK FACTORS AND PUBLIC HEALTH INTERVENTIONS			
	Risk facto	rs are important practices or procedures identified as the most prevalent contributing factors of foodborne illness or injury. Public health int	erventions		
	а	re control measures to prevent foodborne illness or injury. Compliance status to be designated as IN, OUT, NA, NO for each numbered ite			
		IN = In Compliance OUT = Not in Compliance NO = Not Observed NA = Not Applicable COS = Corrected On-Site R = Repeat Violation	1		
Com	pliance S	Status	cos	R	
Super	vision				
1	In	Person in charge present, demonstrates knowledge, and performs duties			
2	In	Certified Food Protection Manager			
Emplo	yee He	alth			
3	In	Management, food employee and conditional employee; knowledge, responsibilities and reporting			
4	In	Proper use of restriction and exclusion			
5	In	Procedures for responding to vomiting and diarrheal events			
Good	Hygieni	c Practices			
6	In	Proper eating, tasting, drinking, or tobacco use			
7	In	No discharge from eyes, nose, and mouth			
Prever	nting Co	ntamination by Hands	,		
8	In	Hands clean & properly washed			
9	In	No bare hand contact with RTE food or a pre-approved alternative procedure properly allowed			
10	ln	Adequate handwashing sinks properly supplied and accessible			
	ved So		<u> </u>		
11	In	Food obtained from approved source			
12	NO	Food received at proper temperature			
13	In	Food in good condition, safe, & unadulterated			
14	NA	Required records available: shellstock tags, parasite destruction			
		n Contamination			
15	Out	Food separated and protected	X		
16	ln .	Food contact surfaces; cleaned & sanitized	l		
17	In	Proper disposition of returned, previously served, reconditioned & unsafe food			
		ture Control for Safety			
18	In	Proper cooking time & temperatures			
19	NO	Proper reheating procedures for hot holding			
20	NO	Proper cooling time and temperature			
21	ln In	Proper hot holding temperatures			
22	ln In	Proper cold holding temperatures Proper date marking and disposition			
23 24	In NA	Time as a Public Health Control; procedures & records			
	ımer Ad				
25	ımer Ad İn	Consumer advisory provided for raw/undercooked food			
		tible Populations			
26	NA	Pasteurized foods used; prohibited foods not offered			
		Pasteurized foods used, profibiled foods not offered			
		Food additives: approved & Properly used			
27 28	In Out	Toxic substances properly identified, stored & used			
29		Approved Procedures Compliance with variance / specialized process / HACCP			
29	NA	Outripliance with variance / specialized process / NACCE			

		GOOD RETAIL PRACTICES						
		Good Retail Practices are preventative measures to control the addition of pathogens, chemicals, and physical objects in foods.						
		OUT = Not in compliance COS = Corrected on site R = Repeat violation						
Com	oliance S		cos	R				
Safe F	ood And	d Water						
30	NA	Pasteurized eggs used where required						
31	In	Water & ice from approved source						
32	NA	Variance obtained for specialized processing methods						
Food Temperature Control								
33	In	Proper cooling methods used; adequate equipment for temperature control						
34	NA	Plant food properly cooked for hot holding						
35	In	Approved thawing methods used						
36	In	Thermometer provided & accurate						
Food Identification								
37	In	Food properly labeled; original container						
Prever	tion Of	Food Contamination						
38	In	Insects, rodents, & animals not present						
39	Out	Contamination prevented during food preparation, storage & display						
40	In	Personal cleanliness						
41	In	Wiping Cloths; properly used & stored						
42	In	Washing fruits & vegetables						
Prope	r Use Of	Utensils						
43	In	In-use utensils: properly stored						
44	In	Utensils, equipment & linens: properly stored, dried, & handled						
45	In	Single-use / single-service articles: properly stored & used						
46	In	Gloves used properly						
	ls, Equip	pment and Vending						
47	In	Food & non-food contact surfaces cleanable, properly designed, constructed, & used						
48	In	Warewashing facilities: installed, maintained, & used; test strips						
49	In	Non-food contact surfaces clean						
Physic	cal Facil							
50	In	Hot & cold water available; adequate pressure						
51	In	Plumbing installed; proper backflow devices						
52	In	Sewage & waste water properly disposed						
53	ln	Toilet facilities: properly constructed, supplied, & cleaned						
54	ln	Garbage & refuse properly disposed; facilities maintained						
55	In	Physical facilities installed, maintained, & clean						

Adequate ventilation & lighting; designated areas used

56

In

Observed Violations:

15- Food separated and protected

OBSERVATION: (CORRECTED DURING INSPECTION)

Core

3-302.11: Packaged and Unpackaged Food- Packaging(C)

Inspector Comments:

Observed items in walk-freezer uncovered. Store food in packages and covered containers or wrappings. Unprotected foods can become contaminated by microbes, dust, or by persons delivering, stocking, or opening packages.

28- Toxic substances properly identified, stored & used

OBSERVATION:

Priority

7-206.13: Tracking Powders, Pest Control and Monitoring (P)

Inspector Comments:

Tracking powders observed in soda machine cabinet and dry storage. Tracking powders may not be used in food establishments unless they are nontoxic. The use of tracking powder pesticides presents the potential for the powder to be dispersed throughout the establishment. Consequently, the powder could directly or indirectly contaminate food being prepared. This contamination could adversely affect both the safety and quality of the food and, therefore, tracking powder pesticides are not allowed. Discussed with PIC, the pest control method will be changed to one that is allowable in food establishments.

39- Contamination prevented during food preparation, storage & display

OBSERVATION:

Core

3-305.12: Food Storage, Prohibited Areas (C)

Inspector Comments:

Observed frozen condensate on box in walk-in freezer stored under water line. Food shall not be stored under leaking water lines. Drips of condensate can be sources of microbial contamination for stored food.

General Comments and Notes	
No Signatures due to COVID19.
