

**FREMONT COUNTY DEPARTMENT OF  
PUBLIC HEALTH & ENVIRONMENT**

201 N. 6<sup>th</sup> Street

Canon City, Colorado 81212

Telephone: 719-276-7450 Fax: 719-276-7451

**Extended: RE: LIMITING GATHERINGS, SPORTS ACTIVITIES, AND ALCOHOL  
SALES IN FREMONT COUNTY**

**November 9, 2020**

This Public Health Order is issued pursuant to Colo. Rev. Stat. §25-1-506, 508, 509, 516 and other applicable authority.

On March 10, 2020, the Governor of Colorado declared a State of Emergency related to the presence of COVID-19 in the State, which has been extended in thirty-day intervals and remains in effect. The Colorado Department of Public Health and Environment has confirmed that COVID-19 continues to spread throughout the State of Colorado.

On March 13, 2020, the President of the United States declared a National Emergency due to COVID-19.

On March 26, 2020, the Board of County Commissioners adopted Resolution Number 25, Series of 2020, extending the Declaration of a Local Disaster Emergency.

On March 22, 2020, the Governor of the State of Colorado issued Executive Order D2020-013 ordering non-critical workplaces to reduce their in-person workforce by 50% and to implement telework capabilities to the greatest extent possible due to the presence of COVID-19 in the state ("March 22 Reduced Workforce EO").

Also, on March 22, 2020, the Executive Director of the Colorado Department of Public Health and Environment, pursuant to Colorado Revised Statute §§ 25-1.5-101(1)(a) and 25-1.5-102(1)(a)(I), also issued an order defining critical businesses and critical government functions that are exempt from the directives of EO D2020-013 ("March 22 CDPHE Reduced Workforce Order").

On March 25, 2020, Governor Polis and the Executive Director of the Colorado Department of Public Health and Environment issued a statewide Stay-at-Home Order until April 11, 2020.

On April 6, 2020 Governor Jared Polis issued Executive Order 2020 024, extending the time to April 26, 2020, for all Coloradans to stay at home and continue to observe social distancing to slow the rate of infection and number of COVID-19 cases.

On April 22, 2020, Governor Jared Polis announced a state-wide easing of COVID-19 restrictions, beginning Monday, April 27, 2020, transitioning from a “stay at home” phase of COVID-19 Response to a “safer at home” response phase, which provided local governments with a variety of options when it came to slowing the spread of the virus in order to protect their communities.

On April 23, 2020 the Colorado Department of Health and Environment issued an Order requiring employees of Critical Businesses and Critical Government Functions to wear face coverings when in close proximity (6 feet) to others.

On April 26, 2020 the statewide and countywide Stay-at-Home orders were replaced with the statewide Safer-at-Home orders.

On July 16, 2020, the Governor of the State of Colorado issued an order requiring Individuals in Colorado to Wear Non-Medical Face Coverings over their nose and mouth.

On July 23, 2020, the Governor of the State of Colorado amended and extended Executive Orders Safer at Home and in the Vast, Great Outdoors to include ceasing alcohol beverage sales to end consumers for on-premises consumption between 10:00 P.M. and 7:00 A.M. each day.

On September 15, 2020, the Colorado Department of Public Health and Environment issued a Public Health Order 20-35 setting forth the requirements for implementation of Safer at Home Dial.

Since the March 26, 2020 declaration of a local disaster emergency, the Fremont County Board of County Commissioners has extended the declaration, which has continued without interruption.

On October 22, 2020, the Fremont County Board of Commissioners extended the declaration of a local disaster emergency to November 25, 2020.

On October 30, 2020, the Fremont County Department of Public Health and Environment issued a Public Health Order that limited gatherings, sports activities, and alcohol sales in Fremont County.

On November 2, 2020, the Colorado Department of Public Health and Environment issued Public Health Order 20-36 setting forth the requirements for implementation of COVID-19 Dial, which remains in effect, subject to certain amendments.

Today, November 9<sup>th</sup>, 2020, the Fremont County Department of Public Health and Environment is amending and extending the October 30, 2020 Public Health Order that limited gatherings, sports activities, and alcohol sales in Fremont County until November 19<sup>th</sup>, 2020.

## **BASIS FOR ORDER**

The virus that causes Coronavirus 2019 (“COVID-19”) is easily transmitted, especially in group settings, and it is essential that the spread of the virus be slowed to protect the ability of public and private health care providers to handle the influx of new patients and safeguard public health and safety. This Order is necessary because of the risk of the rapid spread of the virus, and the need to protect all members of Fremont County, especially including our members most susceptible to the virus and also health care providers.

This Order is issued based on scientific evidence and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically. Due to the outbreak of the COVID-19 virus in the general public, which is a pandemic according to the World Health Organization, there is a public health emergency throughout Fremont County and the State of Colorado.

There is substantial evidence of the continued spread of COVID-19 throughout Fremont County. As of November 9, 2020, there are 1,147 total cases in Fremont County with 381 community cases, 64 probable, and 64 confirmed. Fremont County has a two-week test positivity rate of 4.5%. This current incident rate is significantly higher than previous months, with 158 active cases in the last 14 days, and 2 COVID-19 related deaths. COVID-19 hospitalizations in Fremont County have increased to 7 total hospitalizations.

Ongoing scientific evidence shows that limiting interactions among people slows virus transmission and, as social distancing restrictions are lifted, that minimizing the gatherings of people assists in maintaining reduced virus transmission by reducing the spread of respiratory droplets.

COVID-19 is a respiratory illness transmitted like other respiratory illnesses through person-to-person contact, or by contact with surfaces contaminated with the virus, or through respiratory droplets that people expel when they breathe, cough, or sneeze. Persons can be infected with COVID-19 and be asymptomatic yet still contagious. Persons can be contagious 48 hours before developing symptoms. Many people with COVID-19 have mild symptoms and do not recognize that they are infected and contagious and that they can unintentionally infect others. Persons infected with COVID-19 may become symptomatic anywhere from two to fourteen days after exposure. Symptoms include fever, cough and/or shortness of breath or difficulty breathing. Individuals with serious chronic health conditions and older adults are most at risk for becoming very ill with this disease.

The scientific evidence shows that it is essential to slow virus transmission as much as possible to protect the most vulnerable and to prevent the health care system from being overwhelmed.

One proven way to slow the transmission is for individuals to wear a mask or other facial covering. The CDC recommends the widespread use of face coverings as a mechanism to slow the spread of COVID-19. The primary transmission of COVID-19 is now known to be droplet-based, and the transmission largely occurs in the first seven days after infection, when people are largely asymptomatic. According to the World Health Organization, nearly one in four people

who are infected spread the virus while asymptomatic. Face coverings, when combined with social distancing and other preventative measures, have been shown to significantly reduce person-to-person transmission, especially during asymptomatic contact.

The intent of this order is to implement targeted strategies to reduce transmission of COVID-19, thus reducing illness and a potential surge on the medical system. Reducing the current case rate is required for Fremont County to prevent movement within the Dial past Level Yellow: Safer at Home Concern, in accordance with Colorado Department of Public Health and Environment Public Health Order 20-36. If the incidence rate is not significantly decreased in 10 days, the Colorado Department of Public Health and Environment will move Fremont County to a more restrictive level at that time.

This Order is adopted pursuant to the legal authority set forth in sections 25-1-506, C.R.S. and other applicable law. Under this law, the Fremont County Public Health Director has the duty to investigate and control the causes of epidemic or communicable diseases and conditions affecting public health and to establish, maintain, and enforce isolation and quarantine, and in pursuance thereof, and for this purpose only, to exercise physical control over property and over the persons of the people within the jurisdiction of the agency as the agency may find necessary for the protection of the public health, and to close public places and to prohibit gatherings of people when necessary to protect public health.

#### **I. ORDER:**

Effective November 10, 2020 at 12 a.m.,

The CDPHE issued Public Health Order 20-36 COVID-19 Dial on November 2, 2020. Fremont County exceeded Level Blue: Safer at Home Cautious incidence threshold established in the Dial on October 14, 2020. This order is being issued in order to prevent movement in the Dial to Level Orange: Safer at Home High Risk, and the further restrictions that this change would require in Fremont County.

The following is ordered:

1. Recreational sports will be limited to players and spectators who reside in Fremont County and/or neighboring counties that are in Level Yellow: Safer at Home Concern, Level Blue: Safer at Home Cautious, or Level Green: Protect Our Neighbors.
2. Organized recreational and league sports are limited to 2 spectators per player with no more than 50% of capacity, up to 50 spectators in indoor facilities and 75 in outdoor facilities. All teams and facilities participating in recreational and league sports must submit complete rosters, schedules, location of games/practices and contact information (to include names, phone numbers and email addresses) of all team members or parents of youth who participate prior to the teams playing in any league events, including practice. Failure of parents, facilities, coaches and/or team

organizers to cooperate with contact tracing may result in the league or season being suspended or cancelled.

3. Personal indoor and outdoor gatherings are limited to no more than 10 people from no more than two separate households.
  - a. Nothing in this order prohibits the gathering of members living in the same household.

A personal gathering includes social gatherings at individual residences. It does not include gatherings of family members who reside at the residence. It does not include gatherings at business places allowed to operate pursuant to state and local health orders.

A Personal Gathering does not include:

- a. Employees and volunteers of any business, government, nonprofit, or not-for-profit entity while performing work for such entity;
  - b. Any school sanctioned educational activity;
  - c. Any life rites, such as weddings, graduations, funerals, other religious rites, and worship services, as authorized by and conducted in strict compliance with Colorado Public Health Order 20-36;
  - d. Organized events that meet the criteria in Appendix I of CDPHE Order 20-36 for Indoor and Outdoor Events and have been approved by the Fremont County Department of Health and Environment through the plan review channel;
  - e. Participation in any activity required by law.
4. Restaurants and bars permitted to operate under CDPHE Order 20-36 shall cease alcohol beverage sales to consumers for on-premises consumption and for takeout at 11:00 P.M.
  5. All Non-Critical Office-Based Businesses are encouraged to further increase remote work options and reduce in-person work to the greatest extent possible.
  6. Individuals participating in gatherings must follow all public health laws and orders concerning Face Coverings and must comply with Social Distancing Requirements whenever possible.
  7. In the event that the Fremont County Health Department determines that an outbreak of COVID-19 is traceable to a particular business, the business may be required to close for up to 72 hours to clean and disinfect the facilities and test the employees.

8. If the Colorado Department of Public Health and Environment, or local municipalities have more stringent requirements in place, the more stringent requirement or standard applies.

**II. FURTHER GUIDANCE:**

Further guidelines for face coverings and social distancing are available at <https://covid19.colorado.gov/>

**III. GENERAL INFORMATION FOR ALL PERSONS AFFECTED BY THIS ORDER**

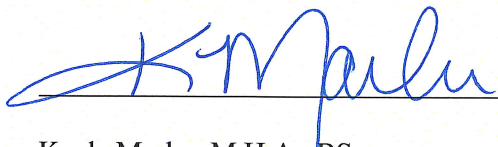

FCDPHE is tasked with protecting the health and welfare of the citizens of Fremont County, Colorado by investigating and controlling the causes of epidemic and communicable disease. This Order is necessary to control any potential transmission of disease to others. Immediate issuance of this Order is necessary for the preservation of public health, safety, or welfare.

Any person aggrieved and affected by this Order has the right to request judicial review; an action with the Fremont County District Court within 90 days of the date of this Order, pursuant to section 25-1-515, Colorado Revised Statutes. However, compliance with the terms of this Order is required while any request for review is pending.

This Order remains in effect until November 19, 2020, unless otherwise extended or amended in writing.

**FAILURE TO COMPLY WITH THIS ORDER IS SUBJECT TO THE PENALTIES CONTAINED IN SECTIONS 25-1-516 AND 18-1.3-501, COLORADO REVISED STATUTES, OR OTHER REMEDIES AVAILABLE BY LAW.**

DATE: 11/9/2020
