

APPLICATION YEAR: 2023

## Fremont County Weed Management DO NOT SPRAY REQUEST

It is the responsibility of Fremont County Weed Management to manage county right-of-way's for noxious weeds within its jurisdiction. Do Not Spray Request applications are a voluntary alternate management practice for treating noxious weed species along adjacent property rights-of-way. Land owners who apply for the request assume the responsibility to manage noxious weeds within their requested zone. Failure to manage noxious weeds as required will result in Fremont County Weed Management to resume spraying operations immediately. Applications are valid for one calendar year, starting January 1<sup>st</sup> and expiring December 31<sup>st</sup> of the same year. It is the sole responsibility of the land owner to re-apply once request application has expired. Proper signage must be visibly posted with the following requirements:

- Signs shall be posted in the vicinity of the right-of-way(s) without encroaching in the right-of-way to allow for road maintenance operations and traffic flow to continue normally.
- Signs must be posted on each end of the Property Land Owner's property. Fremont County weed treatment operations will cease at the first sign and continue immediately after the last sign posted.
- Signage must be clearly visible by approaching traffic, be at least 36 inches off the ground and free of obstruction(s) of the view.
- Signs and lettering must be large enough to view with the naked eye from at least 20 yards away.
- Signs must be maintained to ensure continued visibility.

Please fill out the Do Not Spray Request form for the year of 2023. If more than one parcel is being submitted, a separate request form will need to be attached for each additional one. Forms can be submitted to:

Fremont County Weed Management  
1901 East Main Street  
Canon City, CO 81212

Any questions can be directed to the department at 719-276-7317.
